

**FOR SALE**

# Complete INDUSTRIAL GAS Plants

## OXYGEN NITROGEN

## ARGON HYDROGEN

Plants in excellent condition for relocation anywhere in the world. IAM supplies all types of Industrial Gas plants, liquid or gas, cryogenic and non-cryogenic processes and various purities for all applications. We provide Engineering, Consulting, Plant Audit and Survey, Plant Maintenance and Repair, Expansions, Upgrades and Commissioning through our strategic partner.

# Complete INDUSTRIAL GAS Plants

## OXYGEN

**500 ton/day: GOX @ 99.5%, GAN @ 99.9995%, LOX + LIN (30 t/d) capability, Linde design, molecular sieve adsorption with chiller, plate/fin HX, sieve tray column, Joy & Sulzer compressors with Sulzer O<sub>2</sub> compressor**

- 275 ton/day with ARGON: 275t/d GOX 99.6% purity, 125 t/d GAN, 9.5 t/d LAR, LOX + LIN capability, with (2) Sulzer oxygen compressors

## NITROGEN

*40 ton/day Nitrogen Liquefier*

- 110 ton/day Nitrogen Liquefier
- 150 ton/day Nitrogen @ 99.999% purity, 7 bar delivery pressure, 1991

## HYDROGEN

- 20 ton/day Hydrogen Purification Plant – Cryogenic
  - 1080 Nm<sup>3</sup>/hr with PSA, 1980's
  - 5,600 Nm<sup>3</sup>/hr Syngas plant
- 6,600 Nm<sup>3</sup>/hr Hydrogen plant, Cryogenic purification
- 9,000 Nm<sup>3</sup>/h Hydrogen Plant, 99.99% purity, NG feedstock
- 18,000 Nm<sup>3</sup>/hr Hydrogen PSA Purification Plant, 1999

## ARGON

9.5 ton/day Liquid Argon

**This is a unique opportunity to buy complete facilities at a small fraction of replacement cost.**

**Do not hesitate to contact us if this opportunity is of interest.**

If you have a requirement not listed above, please contact us as we are always evaluating opportunities on an international basis. We specialize in sourcing complete plants and processes for the chemical, petrochemical, mineral processing, pharmaceutical, fertilizer, synthetic fiber, polymer, food processing and similar industries.

**IAM wishes to purchase decommissioned Industrial Gas Plants**
